Or... **AutoPay is free and automatic each month—details on our website. Pair it with Budget Plan to make your gas bill payment amount predictable.**

## Take control of your greenhouse's energy savings

Heating and cooling is a substantial cost for a greenhouse. By optimizing the efficiency of your growing systems, you can maintain plant-friendly temperatures year-round, regardless of external conditions.

FOCUS ON ENERGY® offers financial incentives for climate controls that are essential in maintaining an accurate temperature throughout a greenhouse. When installing a thermostat control, place it near the center of the greenhouse or utilize several sensors spread throughout the building to base the heating and cooling scheduling off an average internal air temperature.

Investing in climate controls will allow you to save 10% – 25% on your utility bills and put those savings back into your growing operation. Help your plants flourish to their full potential. For more information, call **888.623.2146** or visit [focusonenergy.com/agribusiness](http://focusonenergy.com/agribusiness).

\*Some programs require that a resident must be a customer of a participating natural gas AND electric utility. Find out if your electric utility participates at [focusonenergy.com/utilities](http://focusonenergy.com/utilities).

## WISCONSIN

## Notice to customers of St. Croix Valley Natural Gas Co.

St. Croix Valley Natural Gas Company, Inc. filed an application with the Public Service Commission of Wisconsin (PSCW) on June 28, 2019 for authority to increase its natural gas rates. The Company filed at this time for two reasons. First, since the issuance of its last rate order (2016), the Company's cost of operations has increased. Second, this case seeks to resolve all tax accounting issues raised by the PSCW related to the Tax Cut and Jobs Act of 2017 passed by the United States Congress and signed into law on December 22, 2017.

The Company is requesting an overall increase in revenues of \$369,200 annually, or approximately 4.5% over 2016 rates. The impact of the Company's proposal on a residential customer using 1000 therms annually would average approximately \$2.72 monthly, or \$32.66 per year. Final rates may vary from those proposed by the Company and will be determined by the Commission.

A hearing on the Company's application will be held on Tuesday, May 26, 2020 at 11:00AM. This will be a telephonic hearing hosted by the PSCW. Persons willing to participate may attend by dialing (872) 240-3212 at 11:00 a.m. Enter the Access Code: 907-694-349 when prompted. Questions regarding this matter may be directed to Don Piepgras, President, St. Croix Gas, 715-425-6177 or [don@stcroixgas.com](mailto:don@stcroixgas.com), or the docket coordinator at the PSCW, Tyler Meulemans, at (608) 266-3587 or [Tyler.Meulemans@wisconsin.gov](mailto:Tyler.Meulemans@wisconsin.gov).
