July 27,
Monday

Your payment is on time if it is received on the due date by closing time at our payment locations. Mail in time to meet this date or drop your payment at:

River Falls Location:

Our office, 415 S. 2nd Street.
Due date deadline: 5 p.m.

Prescott Location:

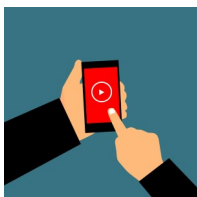

First National Bank,
1151 N. Canton Street.

Due date deadline:

lobby - 5 p.m.,
drive-up window - 6 p.m.

Online bill payers:

allow 10 business days for
your payment check to reach
us to avoid late fees.

ONLINE: Visit us at

www.stcroixgas.com.

You can click through to pay by credit card or check with Payment Service Network. Or call PSN at 877-885-7968.

There is a \$3.99 transaction charge.

Or... AutoPay is free and automatic each month—details on our website. Pair it with Budget Plan to make your gas bill payment amount predictable.

Winner of
the
\$100 gift
card

A River Falls resident won our 2020 Pipeline Awareness random drawing. Nicole V. Johnson's name was drawn from 1,110 entries.

The entries are postage-paid reply cards found in May's mailing of our Pipeline Safety Awareness booklet.

This booklet fulfills a federal requirement to increase the public's awareness of pipeline safety. Anyone with a St. Croix Gas pipeline running past their property received one. The booklets are also available by request.

The \$100 gift card is redeemable at Holiday gas stations.

You Need A Budget.

Everyone has better finances when they have a Budget.

Budget Plan is a bill averaging plan. Paying a little more in the warm months means paying much less in the winter months. Each Budget Plan is customized for the customer's actual usage over 12 months' time.

Call us and ask what your monthly budget payment would be: 715-425-6177, Monday through Friday, 8 a.m.—5 p.m. Budget Plans begin each summer and are re-set twice during the year to reflect your actual usage.

Try AutoPay, too (automatic payment withdrawal). Many people like to combine it with the Budget Plan. We can set it up with your bank account information and signature on our authorization form.

Recover lost energy from your air compressor

Improve your building's energy-efficiency and add to your bottom line by installing an air compressor heat recovery system on your industrial air compressor. A large percentage of the energy consumed by industrial air compressors is converted to heat, which can be recovered and used for space heating, water heating or process heating. Adding an air compressor heat recovery system helps businesses recover heat and use it in different ways.

Incentives provided by FOCUS ON ENERGY® can help add thousands to your bottom line by recovering energy lost from industrial compressed air systems.

For more information call **888.623.2146** or visit focusonenergy.com/business.

*Some programs require that a resident must be a customer of a participating natural gas AND electric utility. Find out if your electric utility participates at focusonenergy.com/utilities.
