Online bill payers:
 allow 10 business days for
 your payment check to reach
 us to avoid late fees.

ONLINE: Visit us at:

www.stcroixgas.com.

You can click through to pay by credit card or check with Payment Service Network. Or call PSN at 877-885-7968.

There is a \$3.99 transaction charge.

Or... AutoPay is free and automatic each month—details on our website. Pair it with Budget Plan to make your gas bill payment amount predictable.

Auto Pay brings your payment to us every month, on time—Mail this form to us, or drop at our office

Simplify your life with Auto Pay for your gas bill. Each month, on the due date, St. Croix Gas will automatically withdraw your gas bill payment from your checking or savings account. This service is free!

When your bill arrives at the beginning of the month, you will see the amount that will be withdrawn. The payment will not be withdrawn until the due date, usually the 25th, or later if that falls on a weekend or holiday.

I authorize St. Croix Gas and the financial institution named below to initiate entries to my checking or savings account. This authority will remain in effect until I notify you in writing to cancel it in such time as to afford the financial institution a reasonable opportunity to act on it.

Customer Gas Account # _____

Customer Name _____

Customer Address _____

Customer Signature: _____

Bank Routing # _____ Bank Account # _____

Important! Enclose a voided copy of your check or savings account deposit slip (mark the word VOID across it) or a deposit verification form on bank letterhead. The document provided must bear your name.

Did you know?

More than 150 people in the U.S. die every year from accidental nonfire-related carbon monoxide poisoning.

Carbon monoxide or CO is a colorless and odorless gas. CO poisoning can occur when a fuel-burning appliance or machine, such as a furnace, heater or generator, is not working or vented properly. Breathing in CO at high levels can be fatal.

Learn what you can do to protect your family from the dangers of CO.

- ✔ Install and maintain CO alarms inside your home to provide early warning of CO.
- ✔ Install CO alarms in a central location outside each separate sleeping area and on every level of your home.
- ✔ Use portable generators outdoors in well-ventilated areas away from all doors, windows and vents.
- ✔ Make sure vents for the dryer, furnace, stove and fireplace are clear of snow and other debris.

Do you smell a natural gas leak?

A skunky smell inside your home might be a natural gas leak. We odorize our gas with a powerful odorant to make it possible to smell very small leaks. This warns you of a leak so you can call us for a leak check.

A furnace safety check every year is a good idea. Contact a local furnace installer for a safety check. Your furnace will burn more efficiently and safely.
