Or... AutoPay is free and automatic each month—details on our website. Pair it with Budget Plan to make your gas bill payment amount predictable.

Smooth sledding! Budget Plans will smooth out your gas bills.

Budget Plan gives you a predictable gas bill. You pay more than your actual bill in warmer months, and less in colder months. You pay the same total as your actual costs over the Budget Plan period, but in monthly amounts that have been smoothed by averaging.

The Budget Year starts with August and ends in July the following year. You can start the Budget Year later in the fall, too, but the Budget Year always ends in July the following year. We make an estimate of your future gas costs for your Budget Year, and divide that by 12 months (or the number of months remaining in the Budget Year), to come up with your Budget payment. This is the amount due on your monthly bill. Your Budget payment is adjusted twice per year to match your actual usage and gas costs.

Your bill will show your actual gas usage with a total cost for the month. It will also show your Budget Payment. That is the amount due. In warm months, you will see the Budget Payment is more than the month's cost. In cold months, you will see the Budget Payment is less than the month's cost.

You may sign up for the Budget Plan using our website e-forms, or over the phone. Questions? Call us at 715-425-6177.
