## Change your overhead fan's direction for summer

Spring is a great time to switch the direction of overhead fans for proper air flow. To keep cool in the spring and summer you will want to make sure your fan blades are turning counterclockwise.

While you are at it, now would be a great time to wipe the dust off those fan blades! Less dust in your HVAC system's filter means lower energy bills.

IF YOU SEE OUR UNIFORMED TECHNICIANS WALKING THROUGH YOUR PROPERTY, THEY ARE CONDUCTING ROUTINE AND REGULATED GAS AND METER SURVEY'S ON OUR EQUIPMENT. IF YOU HAVE ANY CONCERNS PLEASE CONTACT OUR OFFICE @ 715-425-6177.

### Now's the time to take advantage of IRA\* tax credits to make needed home improvements.
